

# **CSCE624 Mini Project 3 Poster: Non-Rubine Features**

**Chao Gu & Aniket Bonde**

For this project, we created a poster based on 2 papers:

1. What!?! No Rubine Features?: Using Geometric-based Features to Produce Normalized Confidence Values for Sketch Recognition.
2. PaleoSketch: Accurate Primitive Sketch Recognition and Beautification

Chao, wrote content of Title, Rubine, non-Rubine features, complex shape recognition and geometric feature.

Aniket selected the poster template, created Abstract, added implementation, results, references and formatted the poster
